

**New Norm,
all-in-one!**

MediaFi 4

MediaFi 4 as the fourth generation of guestroom multi-media entertainment control device, it combines Apple iDevices dock, Samsung MHL connectivity, digital tuning FM radio, Hi-Fi Stereo speaker, multimedia connectivity panel and hotel phone and etc in one. It not only provides auto-sensing media access through TV but also provides charging for guests' portable devices. Telephone handset is only do as one part of MediaFi 4, but it can cover all the functions that hotel phone should have.
