## TF01 CONTACTLESS INFRARED THERMOMETER

**Fast & Accurate Readings | FDA EUA Tested**

### Accurate Measurement

The TF01 measurement accuracy is controlled at  $\pm 0.2$  °F.

### Simple Operation

The TF01 supports one-button temperature measurement. The thermometer will quickly measure the temperature when the trigger is pressed. Automatically shuts down when not operated within 15 seconds.

### Convenient Reading

The TF01 backlit display is easy to read. Conveniently switch between Fahrenheit and Celsius measurement with one click.

### High Safety Performance

The TF01 measures temperature by using contact-less infrared technology. This can significantly reduce the risk of virus spread.

## TF02 CONTACTLESS INFRARED THERMOMETER

**Fast & Accurate Readings, Forehead-Temperature Measurement, and FDA Cleared**

### German Made High Precision Infrared Sensor

The TF02 measures temperature by using German made high precision contactless infrared sensor technology. This allows you to safely use the thermometer and significantly reduce the risk of virus spread.

### Fast & Accurate Measurement

TF02 is fast and accurate. Measurement accuracy is controlled at  $\pm 0.2$  °F.

### High Definition Display

The TF02 has an easy to read HD LED display.

### Straightforward Operation

The TF02 supports one-key temperature measurement. It will quickly measure the temperature within one second. Automatically shuts down when not operated within 60-seconds.
