NOYA | MODEL 5

Professional Digital Ionic High-Speed Hair Dryer

KEY ADVANTAGES

110,000 RPM BLDC Motor Power

Delivers a powerful 1500W output and high-velocity airflow exceeding 72 ft/s. Cuts drying time in half, smoothing strands into high-volume, shiny styles in record time.

Whisper-Quiet Acoustic Performance

Engineered with structural noise-dampening airflow tracks to operate at an ultra-quiet 75dB or below, strictly safeguarding guest privacy and room-to-room tranquility.

Smart Memory Recall Function

Prioritizes guest comfort by instantly recalling the exact heat and speed settings last used, automatically handling cool-shot toggles and reverting back to the user's preferred baseline.

Premium Compact Form Factor

Features a 60% slimmer structure and an ultra-lightweight designed to reduce styling fatigue while optimizing in-room storage space.

AI Smart Thermal Management

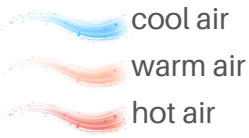
Constantly regulates heat to eliminate hot-spots and prevent extreme heat damage.

20M Plasma Ionic Shield

Floods the hair with stable negative ions to instantly eliminate hotel-room static and lock in smooth, reflective shine.

3 TEMPERATURE SETTINGS

60°C/140°F- 70°C/160 °F- 80°C/180°F-



Cycle Model (press & Hold 3s)

TECHNICAL SPECIFICATIONS

- Chassis Engineering: Advanced Dual Air Inlets design for unrestricted structural airflow
- User Interface: Digital LED icon panel | 3 Wind Settings | 4 Precise Speeds
- Thermal Range: Cool | 60°C (140°F) | 70°C (160°F) | 80°C (180°F)| Automated Hot & Cool Cycle Mode
- Styling Toolkit: 1 Magnetic Nozzle & 1 Magnetic Diffuser (Effortless 360° rotation)
- Electrical Input: Standard US 120V~ 60Hz (Worldwide Dual-Voltage Compatible)
